Calendar

1915

Summer Term (Six Weeks)

June 28—*Monday*. Summer Term begins.

August 6—*Friday*. Summer Term ends.

Fall Term (Thirteen Weeks)

September 6—*Monday*. Fall Term begins. 7 P. M. First Faculty Meeting.

September 7—*Tuesday*. 9 A. M. to 5 P. M. Enrollment and classification of students. Day students, 9 A. M. to 12:00 M.

September 8—*Wednesday*. 8 A. M. All class exercises begin. Model School enrollment.

October 29—*Friday*. 7:30 P. M. Anniversary of the Normal Literary Society.

December 2—*Thursday*. Recognition Day.

December 3—*Friday*. Fall Term ends.

Winter Term (Fourteen Weeks)

December 6—*Monday*. Winter Term begins.

December 11—*Saturday*. Senior Evening.

December 23—*Thursday*. Christmas vacation begins, 12 M.

1916

January 4—*Tuesday*. Christmas Vacation ends. 7 P. M. Study Hour.

February 12—*Saturday*. Junior Evening.

February 22—*Tuesday*. Washington's Birthday (Holiday).

March 17—*Friday*. Winter Term ends.

Spring Term (Thirteen Weeks)

March 27—*Monday*. Spring Term begins. 7 P. M. Faculty Meeting.

March 28—*Tuesday*. 9 A. M. to 5 P. M. Enrollment and Classification of students. Day Students, 9 A. M. to 12 M.

March 29—*Wednesday*. 8 A. M. All class exercises begin.

May 19—*Friday*. 7:30 P. M. Anniversary of the Page Literary Society.

June 15*—*Thursday*. State Board Examination, Senior and Junior Classes.

June 16—*Friday*. Model School Commencement.

June 18—*Sunday*. Baccalaureate Sunday.

June 20—*Tuesday*. 1:30 P. M. Class Day Exercises.

June 21—*Wednesday*. 9 A. M. Commencement Exercises.

June 21—*Wednesday*. 2 P. M. Meeting of the Alumni Association. 5:30 P. M. Alumni Supper.

Summer Term (Six Weeks)

June 26—*Monday*. Summer Term begins.

August 4—*Friday*. Summer Term ends.

*This date may be changed.

Board of Trustees

Elected by Holders of Contributors' Stock

1913-1916

MR. H. M. MAYER*	Rohrerstown, Pa.
HON. JOHN H. LANDIS	Millersville, Pa.
DR. A. B. BAUSMAN	Millersville, Pa.

1914-1917

DR. P. W. HIESTAND	Millersville, Pa.
HON. A. W. SNADER	New Holland, Pa.
MR. H. G. RUSH, '66	R. 7, Lancaster, Pa.

1915-1918

MR. JONAS B. MARTIN	Lancaster, Pa.
H. EDGAR SHERTS, Esq., '96	Millersville, Pa.
MR. KERSEY CARRIGAN, '99	Quarryville, Pa.

Appointed by the Superintendent of Public Instruction

1913-1916

HON. JOHN G. HOMSHER	Strasburg, Pa.
MR. ANDREW F. FRANTZ	Lancaster, Pa.
HON. AMOS H. MYLIN	Lancaster, Pa.

1914-1917

HON. HENRY HOUCK, '75	Lebanon, Pa.
HON. DAVID McMULLEN, '68	Lancaster, Pa.
MR. H. S. WILLIAMSON	Lancaster, Pa.

1915-1918

DR. DANIEL FLEISHER	Lancaster, Pa.
HON. M. J. BRECHT, '75	Lancaster, Pa.
HON. CHARLES I. LANDIS	Lancaster, Pa.

Officers of the Board

President—HON. DAVID McMULLEN

Vice President—HON. JOHN H. LANDIS

Secretary—H. EDGAR SHERTS

Treasurer—H. C. SYMONS, Millersville, Pa.

* Died May 26, 1915.

Standing Committees of the Board

1914-1915

Instruction and Discipline—H. M. MAYER, Chairman; DANIEL FLEISHER; M. J. BRECHT.

Grounds and Buildings—A. B. BAUSMAN, Chairman; AMOS H. MYLIN; JONAS B. MARTIN.

Household—AARON W. SNADER, Chairman; H. G. RUSH; KERSEY CARRIGAN.

School Furniture and Supplies—CHARLES I. LANDIS, Chairman; JOHN G. HOM-SHER; H. S. WILLIAMSON.

Library and Apparatus—H. G. RUSH, Chairman; ANDREW F. FRANTZ; HENRY HOUCK.

Finance—P. W. HIESTAND, Chairman; JOHN H. LANDIS; H. EDGAR SHERTS.

General School Officers

1914-1915

P. M. HARBOLD,
Principal.

H. C. SYMONS,
Treasurer.

H. JUSTIN RODDY,
Preceptor.

MISS ANNA LYLE,
Preceptress.

MISS GRACE E. SEYFERT,
Office Secretary.

H. E. BAUGHEY,
Superintendent of Grounds and Buildings.

A. H. PALMER,
Steward.

H. C. METZGER,
Janitor and Postmaster.

MRS. ADA J. SWAN,
Matron in Ladies' Building.

MISS MARY BAKER,
Matron in Gentlemen's Building.

Faculty

Civics and Pedagogy

GUY K. BARD,
Mathematics

History and Description

MILLERSVILLE STATE NORMAL SCHOOL, the oldest normal school in Pennsylvania, was recognized as a State Normal School, December 2, 1859. This recognition was in accordance with the Normal School Law of 1857. However, five years before this, Millersville Normal, as an institution of learning and professional training, had its origin when the "citizens of Millersville and its vicinity . . . erected a building for the purpose of establishing a school, which they proposed to denominate the Millersville Academy." The years between this beginning and the recognition of the school as a State Normal were years of success and progress. In many respects this "First State Normal School in Pennsylvania" became the model of all the others in the State as well as many Normal Schools in States lying west of Pennsylvania.

In material wealth, the Millersville Normal School grew steadily until the value of its property is estimated at over a half million. Many thousands of students have been enrolled in the various classes and have gone out to do valiant service in the schools of the State where they have ranked high. About 3500 students have been graduated. The equipment in all respects is good and complete.

Location

Millersville is a pleasant village, situated four miles southwest of Lancaster city, in the richest agricultural county in the United States. It is also a most beautiful and healthful place for a school. By trolley car, Millersville is just a half-hour's ride from Lancaster, cars leaving Center Square, Lancaster, on the hour and half-hour for Millersville. These cars are easily reached from the Pennsylvania and Reading Railway stations.

The location of the Millersville Normal School is especially favorable to moral culture. It is near enough to Lancaster to enjoy the benefits of a city, and yet not so near as to expose students to the numerous temptations common to cities. There are six churches of different denominations in the village where students may attend. Millersville is a village of homes. Many families come to live in the village while their children are attending school.

SCENES AT THE NORMAL

Course of Study for Pennsylvania State Normal Schools

Regular Normal Course

[As finally revised and adopted at a meeting of Normal School Principals held at Harrisburg, December 30, 1910.]

NOTE—This course is based on the “unit” plan as proposed by The Carnegie Foundation.

“A unit” represents a year’s study in any subject in a secondary school constituting approximately a quarter of a full year’s work.

(This statement is designed to afford a standard of measurement for the work done in a secondary school. It takes the four-year high school course as a basis and assumes that the length of the school year is from thirty-six to forty weeks, that a period is from forty to sixty minutes in length, and that the study is pursued for four or five periods a week; but, under ordinary circumstances, a satisfactory year’s work in any subject can not be accomplished in less than one hundred and twenty sixty-minute hours or their equivalent. Schools organized on a different basis can nevertheless estimate their work in terms of this unit.)

Students admitted to the First Year shall have a fair knowledge of Arithmetic, Reading, Orthography, Penmanship, United States History, Geography, Grammar, Physiology, Civics, and the Elements of Algebra to Quadratics. Test by Faculty.

FRESHMAN YEAR

	No. 45 Min. Periods	No. of Terms
Algebra (through Quadratics).....	160.....	3
Arithmetic.....	100.....	2
Physical Geography.....	50.....	1

Drawing.....	50 (Weekly double period throughout the year)	
Public Speaking.....	50 (Weekly double period throughout the year)	
Manual Training or Domestic Science.....	50 (Weekly double period throughout the year)	
Physical Culture.....	80.....	Alt. days

In the fourth year Ethics, Logic, and Sociology may be substituted for Virgil, French, or German. Philosophy of Education or Surveying may be substituted for Ethics, Logics, or Sociology.

(Final Examination by State Board.)

Conditions of Admission, Etc.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade, and city high schools as listed by the Department of Public Instruction, shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

4. A person who desires to be admitted to the second or third year without having previously attended an accredited high school must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above, shall not foot up more than 320 weeks.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the examinations at any other State Normal School during the same school year.

6. If a person who has completed the State Board examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double entry bookkeeping; and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State

Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner together with a separate list of students conditioned in any branch, with the branches in which they were conditioned and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

9. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State Examination.

10. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State examination in any year, naming the year.

11. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the course required therefor shall receive the degree of Bachelor of Pedagogics. And Bachelors of Pedagogics who have, after receiving such degrees, taught successfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

12. Residence for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence.

High School Credits

Students who are holders of Teachers' Certificates should bring them to the School for the purpose of classification. High School graduates should send to the school for application blanks for high school credits.

Graduates of high schools, recognized by the Department of Public Instruction, are credited with any academic work done in the high school, whenever the same is equivalent, in quantity and kind, to that required in the Regular Normal Course, excepting United States History and Political Geography in the third year and Arithmetic and English Grammar in the fourth year. [Rule passed by Board of Normal School Principals, Nov. 6, 1913.]

Courses of Instruction

Art

The work in Drawing is intended to give the student a better appreciation of Art as well as a knowledge of its technique from the viewpoint of a teacher.

1. Freehand Drawing—Perspective: drawing of familiar objects, interior and exterior sketches; simple problems in composition; plant forms; cast drawing; history of architecture, one period per week, notes, reference work, and reports; mediums: pencil, charcoal, and water color. *Time: one term.*

2. Freehand Drawing (Second Course)—Design: simple problems suitable for public school use, surface patterns, borders, corners, etc.; color: harmony and theory of color; simple lettering; landscape in charcoal and water color; history of painting, one period per week, notes, reference work and reports; mediums: pencil, charcoal, and water color. *Time: one term.*

3. Senior Drawing—Design: application of plant forms to design, surface patterns and borders suitable for stenciling and wood block printing; color: theory and harmony of color as applied to textiles, interior decoration, and dress; lettering: simple problems in lettering for general school use; blackboard drawing: drawing of familiar objects, illustrations of children's stories; mechanical drawing: type forms and their application, special problems for individual students, interior decoration and house planning; water color: still life and plant forms, landscape; grade outlines; mediums: pencil, charcoal, water color, crayons, pen and ink, mechanical instruments, paper. *Time: one term.*

Domestic Science

A course in Domestic Science is offered, beginning September, 1915. The plan contemplates "unit" kitchen equipment in the most useful and most practical way. A fee will be charged to cover materials used in cooking. The economic side as well as hygienic and sanitary features will receive special attention.

English

The work in the English Department includes Grammar, Rhetoric and Composition, Reading and Public Speaking, a brief study of the History of English and American Literature, and the mastery of the Classics required for college entrance. It aims to give students a definite and complete knowledge of the grammar of the language, the ability to write good English, and the power of critical appreciation. To this must be added effective expression.

1. Grammar—The Regular Normal Course prescribes grammar throughout the Freshman year. A thorough mastery of the analysis of sentences is followed by a careful study of the properties of the parts of speech. In addition to the foregoing, irregular and abbreviated constructions are studied, the position of the parts of speech, the derivation of some technical terms, and a little of the history of the language with a view to the better understanding of present inflectional forms.

During the Senior year Grammar is reviewed. One term is required for this review.

2. Rhetoric and Composition—This is a required study of the Sophomore year. It comprises a study of the principles of Rhetoric, the application of these in frequent exercises in Composition as well as a study of Classics illustrative of the principles and the various forms of composition. Much oral and written composition is required. Classics for study and reading: *Macbeth*, Milton's *Minor Poems*, *Tale of Two Cities*, *Sketch Book*, *Julius Caesar*, Homer's *Iliad* (Lange's Translation), *Ivanhoe*, *Lady of the Lake*, Macaulay's *Essay on Milton*.

3. History of English and American Literature—The Junior requirement fixes one hundred periods for the study of English and American Literature. Much collateral reading is required. Special studies are made of the drama, the novel, romanticism, the short story, and poetry. Written exercises grow out of the study of the various types. The exercises are criticized from the view points of knowledge of subject matter and power of clear expression in writing. Classics for study and reading: Burke's *Conciliation*, Carlyle's *Essay on Burns*, *DeCoverly Papers*, *Hamlet*, *Idylls of the King*, *House of Seven Gables*.

4. Reading and Elocution—Emphasis is laid upon rapid thought-getting as an aid in all branches of study. Following this, considerable attention is given to the acquisition of power in clear and forcible expression. To orations outlined under helpful criticism, introductions are written by the student. These introductions are then delivered from the platform. Every student is also required to deliver a recitation or declamation in a manner satisfactory to the teacher. This work is based on the elementary principles of expression. Articulation and phonics are taken up to correct individual errors and to prepare the student to teach phonics in primary reading which are now so generally required.

5. Public Speaking—Emphasis is placed upon the rules of effective public speaking. Each student appears no less than twice before a public audience.

History

1. Ancient History—This is a Freshman requirement of one term. After a brief survey of the ancient monarchies of the Euphrates and Nile River valleys, the history of Greece and Rome is studied. The rise, growth, and decline of these nations are considered with special reference to their contributions to future civilizations. A text-book-in-chief is used. This is supplemented by outside reading and free lecture work.

2. Medieval History—The course takes up European conditions from the fall of Rome to the fifteenth century. Study centers about medieval conditions, which became later contributing factors to modern nations.

3. Modern History—Conditions in Europe at the close of Medieval times out of which developed the modern European nations are studied to show continuity of the trend of events in the growth of nations and peoples. Following this, nation forming becomes the chief study. This study forms the European background for the study of American History in the Junior year. International relations receive special attention.

4. English History—A study of the development of the England of to-day through the period of invasions, the feudal period, the constitutional period, and the industrial and expansive period. Textbook work, readings, and reports.

5. United States History—Following the study of European conditions, the student sees new relations between these and conditions in colonial America. The study of the peculiar characteristics of each group of colonies is followed by a study of the struggle for independence. Then a study of the constitutional period brings out the growth of the essential American ideals. The course assumes many of the elementary facts and aims to show the larger movements and relations, thus giving the real interpretation to the history of the United States.

6. Civics—National, state, and local government is studied. Principles underlying American government are brought out. In addition to a careful analysis of the Constitution of the United States, the historical development of our government receives much attention.

Latin

Four years of Latin are regularly offered.

1. Freshman Latin—This includes the customary work preparatory to the reading of Cæsar.

2. Cæsar—The Sophomore work in Latin includes four books of Cæsar's Gallic War. In addition to this, considerable time is devoted to a review of the grammar and to prose composition.

3. Cicero—In the Junior year six orations of Cicero—four against Catiline, Archias, Minilian Law—are required of those taking Latin.

4. Virgil—Six books of Virgil are required of Seniors taking Latin in this year.

5. Advanced Latin—When a sufficient number of students desire to study advanced Latin of college grade, a class will be organized. Such classes may take up Horace, Livy, or anything else which meets their particular need.

Mathematics

1. Arithmetic—Two terms of Arithmetic are required of all Freshmen. The fundamental principles of Arithmetic and their application to the solution of problems receive special attention. Practice in rapid and accurate calculation is essential here.

2. Algebra—This is required of all Freshmen. A knowledge of the subject to quadratics is assumed. The course includes a thorough review of principles and problems to quadratics and then takes up quadratic equations, theory of exponents, proportion, and progressions. Much practice in solving problems is required. A study of graphs is also included.

3. Plane Geometry—Five books of Plane Geometry are covered in the Sophomore year. A thorough study of theorems is followed by their application to originals and constructions.

4. Solid Geometry—All of Solid and Spherical Geometry is required of those electing Mathematics in the Junior year.

5. Trigonometry—During the second half-year of the Junior course, Analytical Trigonometry is required of all students electing mathematics in the Junior year.

6. Surveying—After completing Trigonometry, one term is required to complete this subject.

7. Senior Arithmetic—For one term all Seniors are required to review Arithmetic. In this study considerable attention is paid to finding the best methods and short solutions to problems.

8. Higher Mathematics—Classes in mathematics in advance of the course outlined above will be formed whenever a sufficient number of students elects the same.

Manual Training

1. Woodwork—Two and a half periods of shop work a week for twenty-six weeks are required of the gentlemen. The course consists of models constructed from working drawings. This work covers the use of common tools, methods of construction, simple staining, and finishing. The processes include those necessary for teaching wood-working throughout the elementary school.

2. Sewing—Two and a half periods a week for twenty-six weeks are required of all ladies. The buying of materials and trimmings and the cutting and making of their garments give appreciation of materials and cost. All the stitches used in plain sewing are applied to these garments.

3. Handwork for Elementary Schools—Two and a half periods a week for twenty-six weeks are required of all students. The work includes paper and card board construction, elementary bookbinding, a study of the history of paper-making, weaving, and work with native materials. The manufacture of cotton, wool, silk, and linen, and manufacturing conditions which affect the hygienic, economic, and æsthetic value of the material, dyeing and its relation to value are studied. Block printing and stenciling, using student's own designs, are applied to textile materials. The problem of design is considered in relation to all projects.

Modern Languages

1. First Year German—This course deals with pronunciation, conversation, grammar, composition. From 75 to 100 pages of *Märchen und Erzählungen* and *Immensee* are read.

2. Second Year—German grammar, composition, a careful reading of 200 pages of *L'Arrabbiata*, *Höher als die Kirche*, *Im Vaterland*, *Der Prozess*, *Das Kalte Herz*, with much conversation in German.

3. Third Year—Study of grammar, conversation, and about 400 pages of *Die Nonne*, *Wilhelm Tell*, *Minna von Barnhelm*, *Hermann und Dorothea*, *Das Lied von der Glocke*.

4. Fourth Year—Classics read are *Der Grosse Preussenkönig*, *Soll und Haben*, *Götz von Berlichingen*, *Der Traum ein Leben*, *Emilia Galotti*, etc.

French—Two years of French may be taken. This work may be substituted for Latin or German.

Science

1. Physical Geography—To furnish the students of the first year not only with knowledge of the earth's surface features and the phenomena of land, water, and atmosphere, but also to develop on the part of each student the power of observing correctly, interpreting clearly, and presenting in lucid language the geographic features and phenomena about them, is the aim in this course. To do this field work, mapping, map interpretation, the making of outlines of study, the use of reference books as well as the mastery of some standard text-books upon the subject are required.

2. Botany—Systematic Botany forms the basis of the work required in Botany. The characteristics of the four principal groups of plants and the structure and functions of the higher plants are included in the course. Students are required to collect, mount, name, and analyze thirty-five plants. Laboratory work. Note book.

3. Zoölogy—Animal Ecology forms the basis of the work in Zoölogy. The characteristics of the principal branches of the animal kingdom, the fundamental laws of development and distribution, and the various theories of evolution, are included in the course. The museum contains valuable illustrative material for this course. Laboratory work. Note book.

4. Chemistry—A year in General Inorganic Chemistry is required in the Junior year. This course includes the preparation and properties of the more important elements and their compounds, as well as a presentation of the fundamental laws and theories of the Science of Chemistry. Regular laboratory work, with individual experiments, and note-books are required.

5. Physiology and School Sanitation—Not only a good knowledge of the science of the human body is required, but the course aims to acquaint the students with the best means of applying modern science to the sanitary conditions of the school and home.

6. Physics—The equivalent of a year's work is required in Physics. Each student works in the physical laboratory completing in the year's work fifty experiments. The experimental work is so planned that each experiment gives the student a real insight into a physical law or indicates how the law may be derived. In the course stress is laid on causes and effects in such a way as to broaden and clarify the student's appreciation of natural law.

7. Geology—The course in Geology requires one-half year. It gives a fair knowledge of geologic processes, the forces which produce them, the explanation of the more important phenomena that originate within the earth as metamorphism, earthquakes, volcanoes, making of veins, etc. A good knowledge of the history of the earth's changes is also a requirement. Some field work is required in which physiographic features are described

and explained and at least fifteen minerals or rocks are collected and classified.

8. Astronomy—Elementary descriptive Astronomy is offered to students of the Junior class. Time required, one-half year.

Agriculture

Elementary Agriculture—The course aims to acquaint students with the elementary facts of Agriculture and especially to give them an insight into the possibilities of the application of modern science. The economic phases of this study receive special attention also. One of the best results coming from such a study is the dignity it gives to the farmer's calling. An acquaintance with the Government's attitude toward farming proves beneficial.

Pedagogy

1. School and Class Management—This course aims to acquaint the student with the best methods and plans of organizing schools, with special reference to RURAL SCHOOL CONDITIONS. School organization, the daily program, physical surroundings of the school, school government, etc., will be studied.

2. General Methods—Under the head of General Methods the following points are carefully studied: the aim of education, the factors conditioning the teaching process, the teaching process, the drill lesson, the inductive lesson, the deductive lesson, the lesson for appreciation, the study lesson, the review and examination lesson, the recitation lesson, questioning, social phases of the recitation, moral training, and lesson plans. This is a second year requirement.

3. Methods in Geography—This begins with a study of the three great questions: relation, method, material. Analysis of the relation of geography to other subjects of study is taken up. Then follow methods of presentation and selection of materials for the course of study.

4. Methods in History—Here the aim of instruction in History, material to be used, and methods of presentation are carefully considered.

5. Methods in English—This includes methods in Language, Grammar, Composition, and Literature. Unity in the English course is aimed at. The most approved methods of instruction are studied and material for the course of study examined.

6. Methods in Elementary Mathematics—This course includes the methods of teaching Number, Arithmetic, and Algebra. Attention is also given to methods in constructional geometry.

7. Primary Methods—One term of Primary Methods is given in addition to the requirements of the Regular Course. This includes Primary Reading, Number Work, Language, Seat Work, etc.

Rural Sociology

For the purpose of acquainting teachers with accepted methods of studying rural conditions an elementary course in rural sociology is offered. Practically all Seniors take this course. A text-book-in-chief is followed which is supplemented by collateral reading, reports, and a study of statistics of rural communities. The course aims to give the prospective rural school teacher the right point of view and the proper attitude.

Psychology

The Junior class devotes a full year to a comprehensive study of psychology, purposing a broad survey of and an acquaintance with all the major aspects and functions of the human mind.

1. **Physiological Psychology** receives special attention, considering mainly nerves, neurones, reflex action, the anatomy of brain localization, functions of the cerebellum, medulla oblongata, and peripheral nervous system, with especial study of the important senses of vision, hearing, smell, taste, touch, temperature, and pain.

2. **Analytical and Introspective** phases of mental life receive careful consideration in studying consciousness, attention, sensation, perception, apperception, memory, association of ideas, imagination, the reason, feelings, emotion, and the will. Some attention is given to illusion, delusion, hallucination, dreams, hypnotism.

3. During the Spring term the principles of Psychology are applied in a study of Child Psychology and in the consideration of defective and backward children.

Observation

The members of the Junior class devote certain periods to observation work in the Model School. Here methods of Teaching and Class Management are the chief points for observation. On special days when the supervisors in the Model School are teaching for the practice teachers, the members of the Methods classes are invited to observe. This observation work is in charge of the instructor of the classes in Methods. Carefully written reports are required of each observer.

In addition to the foregoing members of the Methods classes are sent to observe, for a half day at a time, in the surrounding rural schools. Written reports are required of these observations.

Commercial Branches

1. **Bookkeeping**—A course in elementary double entry bookkeeping is required. The budget system is employed which allows for individual progress and makes for accuracy.

SCENES ABOUT THE CAMPUS

2. Typewriting and Shorthand are offered. These are open to all students who have time and inclination to take them. The courses are thorough, complete, and designed to equip students for office work. In many schools of today commercial branches are taught. A teacher may here get this training preparatory to such teaching.

3. Penmanship—Every teacher ought to have skill in writing both with pencil and pen as well as on the blackboard. Each student is required to present evidence of the ability to write legibly and a fair knowledge of the principles of writing. In the Senior year some special time and attention are devoted to methods of teaching writing.

Practice Teaching

Every Senior teaches under expert and close supervision in the Model School and School of Practice for forty-five minutes daily through the entire school year of forty weeks. Here the principles and methods of teaching as well as school and class management taught during the previous years are applied. Weekly and daily lesson plans are made and criticized by the various supervisors. These plans are then carried out in the class-room.

The work is so planned that each Senior will have an opportunity to teach in Primary, Intermediate, and Advanced grades. From three to six different subjects are taught by each. At weekly conferences held by the supervisors, attention is called to points of progress in the art of teaching. All suggestions are intended to be constructive criticism.

Five regular supervisors, including the Superintendent of the Model School, spend their entire time in this practical aspect of teacher-training. In addition to these, the Normal School teachers of Drawing, Manual Training, and Penmanship supervise the teaching of their specialties. The training gained in this practice teaching is intensely practical. The Model School classes are graded according to modern ideas of graded schools, and include a Kindergarten, an Elementary School of eight grades, and a High School with a three years' course of study.

Music

1. Vocal Music—Instruction in the elements of Vocal Music is imparted to students, including sight reading, the proper management of the voice, the best way of presenting the subject to children, etc. The work is intended to cover the requirement of the Freshman year as set forth by the Course of Study.

2. Voice Culture—In addition to the regular course in Vocal Music, an excellent course in Voice Culture is offered to those who have special talent along this line and time to cultivate it. Special students are enrolled

in this department. These pay only for special lessons. For rates, see page 33 of this catalogue.

3. Piano—Instruction in piano playing is given. The course is comprehensive and offers a good opportunity to any one desiring to become proficient in this art. For rates, see page 33.

Other Instrumental Music lessons can be arranged for at rates specified on page 33.

Physical Culture

All students are required to take the work in this department. They report in the Gymnasium for forty-five minutes of work on alternate days. Any one who claims to be unable to go through the light exercises must have a physician's certificate stating the reasons why such student shall be excused. All excused students observe. The course aims to prepare teachers to conduct such calisthenic and gymnastic exercises as are possible in the public schools. At the same time it serves as a means to keep students themselves in regular exercise.

Games and play for children receive considerable attention. Before graduation a student must present evidence of a knowledge of such games as may be selected by the instructors of Physical Culture. Following is a selected list:

All Up Relay; Arch Goal Ball; Balloon Ball; Baseball (indoor and out); Baste the Bear; Beast, Bird, or Fish; Bean Bag Race; Black and White; Bombardment; Captain Ball; Cat and Mouse; Chinese Wall; Circle Race; Circle Stride Ball; Club Snatch; Corner Ball; Dodge Ball; Drive Ball; Duck on the Rock; Emperor Ball; First Ball; Fox and Geese; German Ball; Hill Dill; Indian Club Race; Japanese Club Race; Jump the Shot; Kick Ball; Last Couple Out; Long Base; Maze Tag; Midnight; Numbers Change; Over and Under Pass Ball; Oyster Shell; Pass Ball; Passing Race; Pig in a Hole; Potato Race; Prisoner's Base; Soccer; Shuttle Relay Race; Spud; Statues; Stealing Sticks; Three Deep; Volley Ball.

Course on the Use of Books and Libraries

Course 1—The course includes a brief survey of the development of the modern library, arrangement of the Millersville library and general principles of the classification of books, the card catalogue, structure and care of books, printed parts of a book, periodical literature, periodical index, reference books, bibliography, history of the book, book selection (30 hours).

Course 2—Children's literature, selection and care of school libraries (10 hours).

Preparatory Course

Since a definite requirement is set for entrance upon the work of the Regular Normal Course, it will be impossible for a number of students to qualify

for the Freshman year. For these a Preparatory Course is planned to give both the knowledge and training necessary for the work of the Regular Course. In this course, Reading, Spelling, Writing, Arithmetic (Written and Mental), United States History, Geography, Grammar and Composition, Physiology, and Elementary Algebra are taught.

The Preparatory classes are taught by the regular members of the Faculty. This is an excellent course and offers an unusual opportunity to prepare for the Regular Normal Course.

Scholarships, Prizes, Etc.

Alumni Loan Fund

The Alumni and other friends of the school have established a fund, which is lent to deserving students without interest to enable them to complete their course. The fund amounts to nearly \$1500, and its benefits have to this time been confined of necessity to members of the Senior class. Contributions to the fund will be thankfully received. Address H. C. Symons, Millersville, Pa., treasurer of the fund.

Scholarships

A free scholarship has been established by the students of the school during the administration of Prof. James P. Wickersham as Principal. It is designed to honor the memory of this distinguished educator, and is entitled the Wickersham Memorial Scholarship. It is awarded at the close of each school year by the Faculty and State Board of Examiners to a student who has completed the "Final" examination for entrance to the Senior class and who is entitled to the benefit of State Aid. It includes boarding and the use of text-books, rent free, for the Senior year. The basis of selection is scholarship and moral character.

The sum of \$1000 has been subscribed by the Class of 1898, the interest of which (\$50) is used annually in assisting to pay the expenses of a meritorious student. This scholarship is awarded at the close of each school year to the student who ranks second in his work preparatory for entrance to the Senior class and is payable after graduation.

Prizes for General Scholarship and Teaching

Prizes for General Scholarship and Teaching will be given by the Board of Trustees to students who will complete the Regular Course. They will

be awarded on the basis of scholarship and deportment and will be due and payable after graduation. The amount of the prize, or prizes, will be deducted from the student's bill after graduation, or paid to him in cash if his bill is settled.

For General Scholarship

(a) To candidates for the Senior class who have attended school at least one year: 1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. (Open to all students except those to whom the scholarships are awarded.)

(b) To members of the Senior class: 1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. (Open to all Seniors except the holders of the scholarships.)

For Practice Teaching in the Model School

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. Open to all Seniors except the holders of the scholarships.

When two contestants entitled to prizes have equal rank, the prizes will be divided equally between them. When a student's standing entitles him to two prizes (including scholarships), the higher prize will be awarded to him.

The foregoing prizes are intended to encourage students to graduate, and consequently are awarded only upon the condition that the students selected to receive them complete the course of study in this institution. For this reason they do not become due until after graduation, nor are they payable to any one who does not graduate at school.

For Debating and Public Speaking

Faculty prize. A silk banner with names of winning Society team is presented by the Faculty. Open to all students.

Principal's prize for oratory. The interest of \$250. Open to all students.

Class of '95 prize, for oratory. The interest of \$100. Open to members of the Freshman, Sophomore, and Junior classes.

The text-books now in use are the following:

SENIOR CLASS

Agriculture—Warren.

Arithmetic—Lyman.

English Grammar—Lyte.

Ethics—Fairchild.

French—Chardenal's Grammar.

German—Becker and Rhoades.

History of Education—Kemp.

Logic—Atwater.

Methods of Arithmetic—Teaching of Elementary Mathematics—Smith.

Methods in Grammar—Teaching of English—Chubb.
Philosophy of Education—Horn.
Physics—Hoadley.
Public Speaking—Marsland.
Sociology—Cubberly.
Virgil—Frieze.

JUNIOR CLASS

Astronomy—Howe.
Chemistry—Brownlee, etc.
Cicero—Allen and Greenough, or Harkness, Kirkland, and Williams.
Civics—Maltby.
Economics—Bullock.
French—Chardenal's Grammar.
German—Becker and Rhoades.
Geology—Blackwelder and Barrows.
Solid Geometry—Hull.
History (U. S.)—McLaughlin.
Literature—One Year Course in English and American Literature—Heydrick.
Methods in Geography—McMurry.
Methods in History—McMurry.
Physiology—Davison.
Political Geography—Roddy.
Psychology—Halleck.
School Sanitation—Dresslar.
Trigonometry—Wells.

SOPHOMORE CLASS

Bookkeeping—Modern Illustrative Bookkeeping—Williams and Rogers.
Botany—Leavitt; Elementary Biology—Peabody and Hunt.
Caesar—Allen and Greenough, or Harkness and Forbes.
General Methods—The Teaching Process—Strayer.
History (English)—Andrews.
History (Modern)—Myers.
Plane Geometry—Hull.
Rhetoric and Composition—Brooks and Hubbard.
Zoölogy—Elementary Biology—Peabody and Hunt.

FRESHMAN CLASS

Algebra—Hull's Complete.
Arithmetic—Brooks.
Grammar—Kittredge and Farley.
History (Ancient)—Myers.
History (Medieval)—Myers.
Latin—Pearson, D'Ooge.
Physical Geography—Salisbury.
Reading—Southwick.
School Management—Dutton.
Spelling—Rice.

PREPARATORY CLASSES

Algebra—Hull.

Arithmetic—Hull.

English Grammar—Prince.

Geography—Roddy.

History—McLaughlin and VanTyne.

Physiology—Davison.

Reading—Lights to Literature, Fifth Reader.

Spelling—Rice.

Applications for Teachers

Many school directors and principals of schools ask the School to recommend good teachers. The School always tries to answer questions frankly and to assist school officers in finding the teachers best suited to their needs. At or near the close of the school year, the greatest service can be rendered.

Moral and Literary Culture

Moral and Religious Training

BELIEVING in the importance of moral and religious culture, the School takes great care to aid students in forming virtuous habits, to imbue their minds with correct moral principles, and to inspire their hearts with the truths of Christianity. The institution, however, is in no sense sectarian. Each student's religious belief is fully respected.

Among the religious privileges of the School are morning devotional exercises, Sunday Bible classes, prayer-meetings, and an occasional sermon or religious lecture. Students are required to attend the morning devotional exercises. They will be excused from the Bible classes if they or their parents or guardians have conscientious scruples against attending these. Attendance upon other religious exercises is voluntary.

Literary Societies

Among the attractions of the School are two flourishing Literary Societies, conducted by the students, the "Normal" and the "Page." They hold weekly meetings. They have together about 12,000 well-selected volumes in their libraries. A student may become a member of one of these societies by paying a small initiation fee. *Every student is urged to join one of them.*

Lecture and Entertainment Course

A Lecture Course of high grade is given under the auspices of the school. For the school year 1915-1916, the following lectures and entertainments have been arranged:

1. October 22—The Weber Male Quartette.
2. November 5—Edwin M. Whitney—Interpretive Readings.
3. February 4—Geo. H. Bradford, "Suncrowned Manhood."
4. April 29—Metropolitan Grand Quartette.
5. May 27—Strickland W. Gilliland, Humorist.

During December or January a lecture on International Peace will be given by a representative of the Carnegie Endowment for International Peace.

Regular students are admitted free to these lectures and entertainments. Each student will receive a card of admission signed by the Treasurer of the School.

Christian Associations

A flourishing Young Woman's Christian Temperance Union is connected with the School. It includes among its members a large number of students of both sexes and accomplishes a great good.

A Young Men's Christian Association and a Young Women's Christian Association have been strong organizations in the Normal for many years. Each body has a large and influential membership.

Buildings and Grounds

Main Buildings

THE Main Normal School buildings are large, including the Administration Building, the Ladies' Building, and the Gentlemen's Building. The east front of the main buildings is about 300 feet long, the south front about 210 feet, and the north front 150 feet. Several upright water pipes that are connected with the standpipe are placed throughout these buildings, with hose attachments that will extend to all parts of the halls and rooms on every floor, and the utmost precautions are taken to prevent accidents by fire. There are eight stairways in different parts of the three main buildings, fire extinguishers are within easy reach, fire escapes and ladders are provided, and a special watchman is on constant duty at night. A large chemical fire engine is kept fully charged, in a convenient room, and the working-men connected with the School have been carefully instructed with regard to its use.

The Ladies' Building is a very large, handsome structure, in the old colonial style of architecture. It has accommodations for about 350 students.

The Gentlemen's Building, which is similar to the ladies' Building in style, has accommodations for about 250 students.

A large Administration Building is between the ladies' and gentlemen's buildings, completely separating them. The central building contains the spacious chapel, recitation rooms, offices, book room, trustees' room, dining room, etc.

Gymnasium

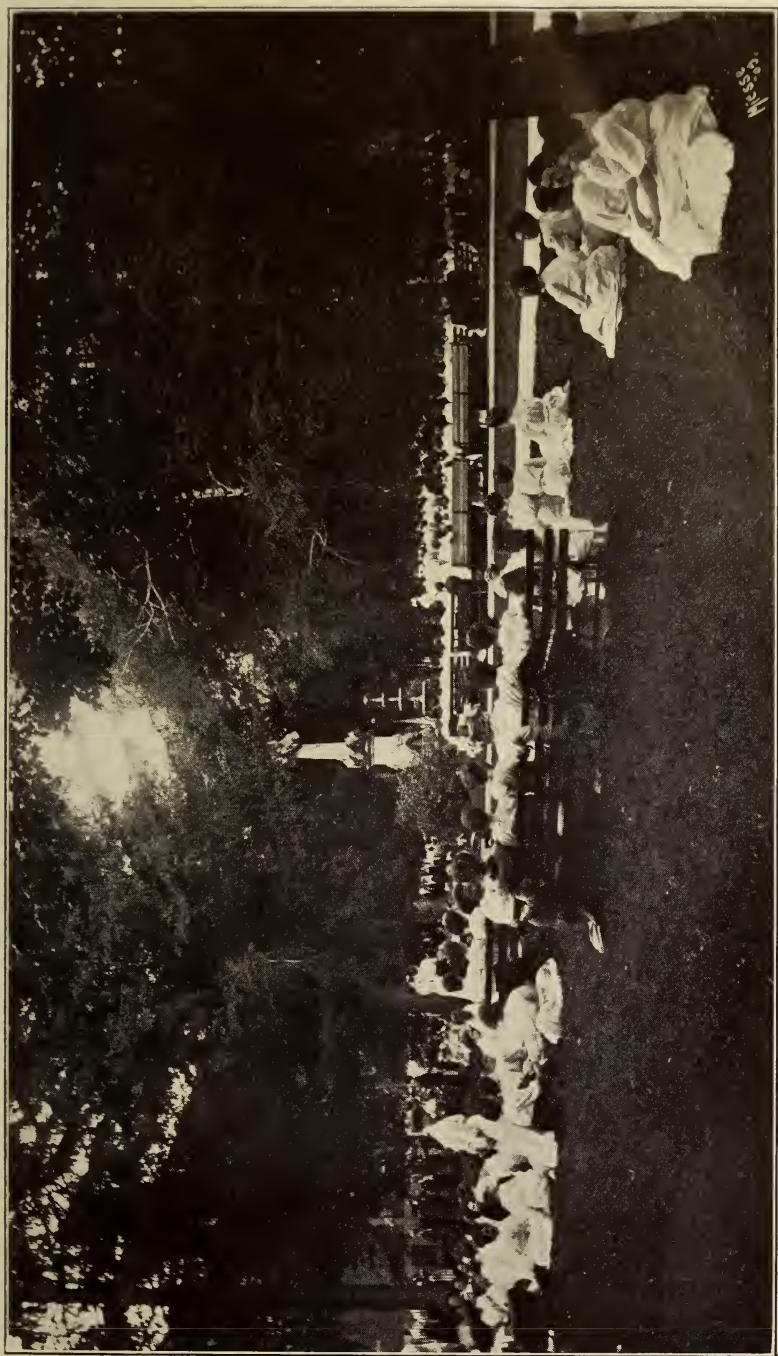

A large gymnasium, fully equipped with the best modern apparatus for a complete course of physical training for ladies and gentlemen, is located north of the new annex to the ladies' building. It is in charge of a lady and a gentleman specially fitted for their work. All students have the opportunity of availing themselves of the great advantage of pursuing a course of physical training without extra cost. The work done in the gymnasium has proved of great benefit to students.

Library

A building, with frontage of 107 feet and a depth of 109 feet, erected for library purposes, occupies a prominent position northeast of the ladies' building. It is one of the handsomest buildings of the kind in the country. It contains the general library of the school, the reading room and reference library, the libraries of the literary societies, etc., in all about 16,000 volumes. It is under the charge of a trained librarian and several assistants. It is open from 8 A. M. to 5:20 P. M. The reference library is supplied with many of the latest and best encyclopedias and books of reference, including the latest works upon the subjects taught in the various departments of the School. The reading room is supplied with a large number of the leading magazines and reviews, daily and weekly newspapers, religious periodicals, educational journals, etc. These exceptional literary advantages are afforded to all students without extra charge.

Science Hall

A building devoted to the sciences and arts is located on the north campus. The front of the building is 120 feet in length, the east wing 80 feet, and the west wing 56 feet. It contains lecture rooms and class rooms for instruction in Physics, Botany, Zoölogy, Chemistry, Commercial Branches, Drawing, Manual Training; also physical, chemical, and biological laboratories. On the second floor of the north wing there is a museum which contains a number of very valuable collections.

MEMORIAL DAY AT THE NORMAL

Model School and School of Practice

A building, 123 feet by 61 feet, used exclusively as a Model School and School of Practice, was completed in July, 1901, and first used in the fall of that year. This building was especially planned for this purpose, and is in all respects a most commodious and most convenient Model School building. It is located east of the turnpike, opposite the administration building. It contains 20 recitation rooms, besides a large assembly hall, general office, library, two rooms for exercising, manual training room, chemical laboratory, room for kindergarten, etc.

In every respect this is an excellent modern school building.

Household Department

A large and handsome building has been erected for household purposes. It contains carpenter and machine shops, engine rooms, a bakery of the most approved type, laundry rooms, store rooms, lodging rooms for hired help, etc. This much needed building enables the household department to be completely equipped for its important work.

Infirmary

A comfortable, two-story building, with steam heat, bath rooms, hot and cold water, cemented basement, with cooking equipment and laundry appliances, proper sewerage connections, etc., has been fitted up, following the suggestions of the county medical inspector and representative of the State Board of Health in Lancaster county. It is a double building, the two sides being entirely separate, one part for ladies, and one for gentlemen. It is properly isolated and conveniently located, and is connected with the different buildings by telephone.

Other Buildings

Other buildings belonging to the School "plant" are a transformer House, with an electric shop, a large refrigerating plant, a large barn, a carriage house, a grand stand on the athletic field, and a boiler house containing four 150 horse power boilers.

All the leading buildings are connected by an inter-communicating telephone system, affording instant communication between different parts of the main buildings forming the "plant" of the School.

Grounds

The buildings are surrounded with grounds to the extent of about twenty acres, part of which is covered with forest trees, shrubbery, and flower beds, and part is carefully laid out and used for tennis, baseball, football, and

other outdoor games. A soldiers' monument, erected by the students soon after the Civil War, stands on the campus in front of the administration building, and two beautiful fountains ornament the ground in front of the ladies' building. A beautiful lake for skating and boating and containing myriads of gold fish forms part of the plan. The ground has been graded, walks have been laid out, and hundreds of trees and shrubs have been planted, which enhance the beauty of the place.

A never-failing supply of remarkably good water is found on the grounds. It flows upwards, like an artesian well, through the rocks, which form the bottom of a large reservoir, from which it is pumped into a standpipe eighty feet high, with a capacity of 50,000 gallons, and thence distributed throughout all the buildings and different parts of the campus.

Government

THE method of government of the institution is based upon the sense of duty and the power of self-control. More reliance is placed upon the principles of self-government than on positive rules and penalties.

It is assumed that each student who enters the School understands and agrees to obey all its regulations, and is disposed to do right and submit cheerfully to the wholesome restraints that are found necessary in a well-regulated institution of this kind.

During the Winter Term of 1913, the gentlemen students instituted a system of *Student Government* in their dormitory. The central governing body is called "The Student Senate," composed of six Seniors, four Juniors, three Sophomores, and two Freshmen. The representatives are elected by the several classes. The Senate holds regular meetings and transacts its business in accordance with good business procedure.

The ladies of the School are under the careful oversight of the Preceptress and the other lady teachers. An honest effort is constantly being made to care for and protect them as they would be cared for in the best homes.

Students' reports of attendance and progress will be prepared as soon after the close of each term as possible, and sent to the parent or guardian, or given to the student. Reports of the Fall and Winter Terms are to be examined by the parent or guardian and, after signing the same, to be sent to the Record Secretary. Spring Term reports are kept by the students.

Regulations for Students

1. Rooms may be engaged by writing to the Principal. All students are required to room in the school building or in private houses designated by the school. No one is permitted to room or board out of the school building until all the rooms are occupied, except for special reasons, and by previous permission

of the Principal. Rooms are supplied with furniture and will be ready for occupancy on the first Tuesday of the session. Rooms should be vacated not later than the day following the close of school. All keys must be returned to the Bookroom at the close of the Winter and Spring terms.

2. Rooms engaged and not occupied by the first evening of the term may be forfeited. Rooms will be assigned to new students in the order of their application and entrance as far as practicable. Rooms will be held two weeks for students who make the advance payment on or before the opening of the term. *To have a room reserved the enrollment fee must be paid when reservation is made. In case a student cannot come to school, this fee will be refunded if the school is notified not later than the Saturday before the opening of the term for which the room is reserved.*

3. The use of tobacco is prohibited in the buildings and on the grounds.

4. Students furnish their own towels, soap, and napkins and must have all articles of clothing plainly marked with indelible ink with the full name. Each student is entitled to have fifteen pieces washed a week without extra charge. He will be charged for additional pieces. Electric light is furnished by the school, and other lights are not permitted.

5. Students must have their rooms in good order and ready for inspection by 9 A. M.

6. In order that all may get the full benefit of study hours, there must be quiet in the halls and rooms.

7. A student's first duty is to report at the public office for enrollment. Here his program is arranged. After this all classes must be entered promptly. Every student shall be present at the daily opening exercises of the school, and at all general exercises in the chapel, unless excused.

8. *Inasmuch as frequent absence from school for any reason hinders the progress of study, permission to leave school will not be granted without good reason for such absence.* Week-end visits are not permitted unless the parent writes to the School requesting such permission and a written invitation is sent to the School by the parent in whose family the student desires to visit.

9. Unless properly excused, students are required to take regular exercise in the gymnasium under a trained instructor. For this purpose they are expected to provide themselves with suitable clothing, including shoes. Ladies should bring a proper gymnasium suit, preferably black serge, consisting of bloomers and waist. Shoes may be obtained at the school. Rubber soled shoes are not advisable for general gymnastic work.

All athletic games and contests and all public exercises are under the general control of a committee of the Faculty. No student can take part in any public game or contest unless he is a *bona fide* student whose conduct and standing in class are satisfactory.

10. It is expected that the ladies and gentlemen of the institution will treat one another with politeness, and in accordance with the usages of good society.

11. Ladies will not be permitted to have gentlemen, not relatives, visit them except by permission from the Preceptress.

12. Except for special reasons, no visiting will be permitted on Sunday or in the evening. Permission to receive visitors shall be obtained before the visitors come to the school. Prolonged visits always interfere seriously with the progress of a student in his studies, and should not be made except for urgent reasons and by previous arrangements for boarding, etc. Visits to students by any one during the school hours of the day or evening seriously interfere with their work, and should not be made unless necessary. The best time to visit students is Saturday afternoon. Young persons visiting students will be expected to conform to the regulations of the school. Children under twelve years of age will not visit students except by previous permission.

Study Hall

For the benefit of all Day Students a Study Hall is maintained and presided over by some member of the Faculty or other responsible person. Room R is devoted to this important purpose.

Study Hall Hours—9 A. M. to 12 M. and 1 P. M. to 3:15 P. M.

All day students will report in Study Hall for all their regular vacant periods, including the alternate gymnasium period, during the hours the Study Hall is maintained.

Business of the School

THE tuition of all students at the State Normal Schools, who are not less than seventeen years of age and who sign an agreement to teach in the public schools of this Commonwealth for not less than two years, and who are pursuing regular courses in pedagogy therein, shall be paid by the Commonwealth. (Extract from Section 2020, School Laws of Pennsylvania.)

In order to be enrolled as a student in this Institution, all persons must pay an enrollment fee of \$5, no part of which is returned for any reason. This charge is made once during each school year.

The expense to boarding students for the entire year, including enrollment fee, board, tuition, room rent, heat, light, and laundry work, is \$245. If a boarding student receives State Aid, the expense is reduced to \$185 for the year.

Day students pay \$80 a year for enrollment fee, tuition, school privileges, and use of study hall. If a day student receives State Aid, the charge is \$20 per year.

The following table will give a clear and concise statement of the charges for each term, or part of a term, exclusive of enrollment fee:

REGULAR CHARGES

	Fall Term, 13 Weeks.	Winter Term, 14 Weeks.	Spring Term, 13 Weeks.	Part of Term, per Week.
Boarding Students.....	\$78.00	\$84.00	\$78.00	\$6.50
Boarding Students after deducting State Aid.....	58.50	63.00	58.50	5.00
Day Students.....	24.50	26.00	24.50	2.00
Day Students after deducting State Aid.	5.00	5.00	5.00	.50

CHARGES FOR SPECIAL LESSONS, ETC.

	Fall Term, 13 Weeks.	Winter Term, 14 Weeks.	Spring Term, 13 Weeks.	Entire Year.	Part of Term, per Week.
Instrumental music or voice culture, 2 lessons weekly, 2 practice periods daily.....	\$22.00	\$22.00	\$22.00	\$65.00	\$2.00
One lesson weekly, one practice period daily.....	11.00	11.00	11.00	32.50	1.00
Use of piano, 2 practice periods daily.....	3.00	3.00	3.00	9.00	.30
One practice period daily.....	1.50	1.50	1.50	4.50	.15
One lesson weekly, without use of instrument.....	9.50	9.50	9.50	28.00	.85
Two lessons weekly, without use of instrument.....	19.00	19.00	19.00	56.00	1.70
Typewriting, one period daily with use of typewriter.....	6.00	6.00	6.00	18.00	.50
Stenography, daily lessons in class.....	6.00	6.00	6.00	18.00	.50
Penmanship (special lessons in class daily).....	6.00	6.00	6.00	18.00	.50
Chemical laboratory, charge for breakage, etc.....	1.25	1.25	1.25	3.75	.10
Manual Training, charge for material.....	.75	.75	.75	2.25	.10
Agriculture.....	.25	.25	.25	.75	
Zoölogy.....	.50	.50	.50	1.50	
Botany.....	.25	.25	.25	.75	
Physics.....	.25	.25	.25	.75	
Dinner, five school days.....	13.00	14.00	13.00	40.00	1.00

Tuition in regular classes to special students in Public Speaking, Music, Manual Training, Drawing, Gymnastics, etc.: one class, 60 cents weekly; 2 classes \$1.10; 3 classes, \$1.50.

Students desiring to occupy single rooms may arrange to do so, when the building is not full, for 75 cents a week additional charge.

Boarding to students during winter and spring vacations, and transient boarding, \$6 a week or \$1 a day.

Deduction—No deduction is made to students entering within the first two weeks, or leaving within the last two weeks, of any term, nor for a part of a week.

No difference in the charge for boarding and tuition shall be made in favor of any students pursuing similar studies. (Extract from Section 2019, School Laws of Pennsylvania.)

Boarding students absent from school two full consecutive weeks on ac-

count of *personal sickness* are granted a reduction of \$2.75 a week for each full week absent.

Money paid in advance will be refunded provided said student presents to the Treasurer a withdrawal card signed by the Principal.

All students are admitted free to all regular lectures, entertainments, and athletic contests held under the auspices of the school.

Payments

All moneys must be paid to the Treasurer who acts on behalf of the Trustees. **Payment for board, tuition, music, etc., is to be made at the time a student enrolls and at the beginning of each term thereafter.**

A student's account (including books and stationery) must be settled at the end of each term. No student will be promoted, granted a withdrawal card, recommended to the State Board for examination or second diploma until all bills have been paid.

Checks, bank drafts, express, and post-office money orders may be used in payment of all bills. They should be drawn payable to the Treasurer.

There are no extra charges except for books and stationery and extra branches named above.

The extra expenses of students are very small, consequently they do not need large sums of spending money. Arrangements are made by which students may deposit money with the Treasurer, and draw it at such times as they desire.

Mail, Telegraph, Etc.

The school has four mails daily. Mail matter should be addressed: *Millersville, Lancaster Co., Pa.* The words *State Normal School* on the envelope of a letter or package will facilitate its delivery.

Write the name of the post-office, *Millersville*, plainly. Mail matter frequently fails to arrive promptly because it is directed to Millersburg or Millers-town or Minersville, instead of *Millersville*.

All telegrams addressed: *State Normal School, Millersville, Pa.*, will be sent to the school free by telephone from Lancaster.

Both telegraph companies—the Western Union and the Postal—have printed directions to this effect in their books of instruction to agents.

The school is connected by telephone with nearly all parts of eastern and central Pennsylvania.

Express packages should be prepaid and should be addressed: *Millersville State Normal School, Lancaster, Pa.*

Arrangements for Trunks

Trunks are brought from baggage room and taken to baggage room at the Pennsylvania and Reading railway stations by the Traction Company. When they come to school students will hand railroad checks for trunks to the *street car conductor on the Millersville car*, with payment for transportation of trunk. Trunks should be properly labeled by students. Labels are furnished free of charge on request.

Charges for Trunks, Grips, Suitcases

Trunks.....	25c.
Grips.....	15c.
Suitcases.....	10c.

On the opening and closing days of the School, when the Company has a man in charge, the above rates include getting baggage from and taking it to both stations.
